

WALKING ACROSS THE HEAVENLY LAKE

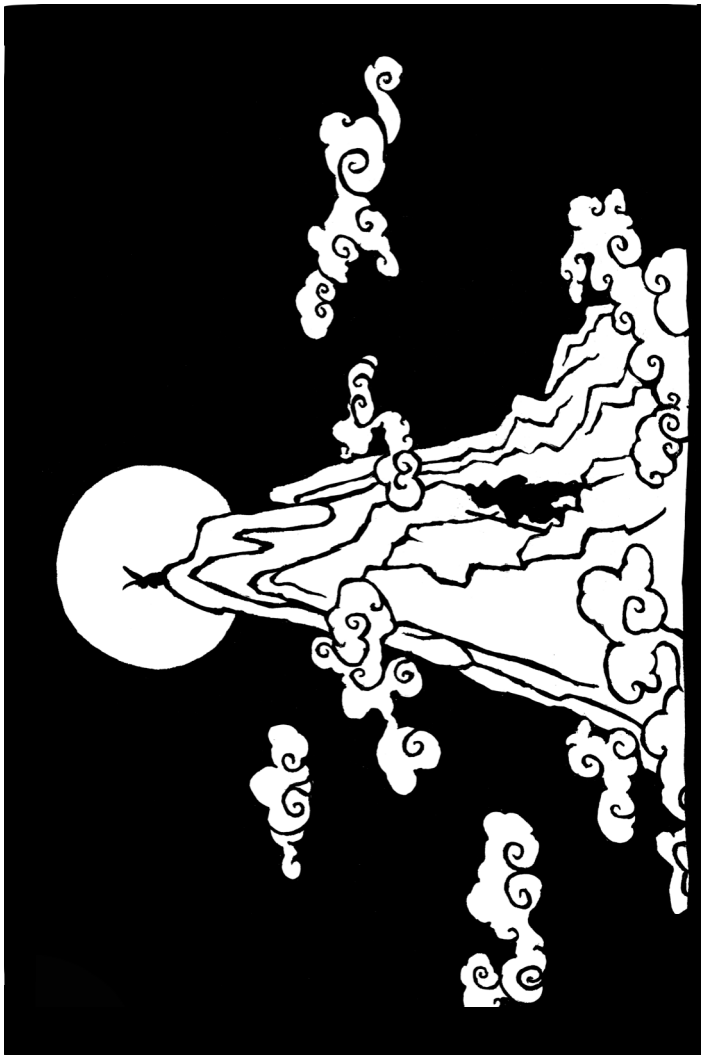

How the Worlds Connect

Pinmei and Yishan see the moon at the bottom of the Heavenly Lake (pages 270-272). The Heavenly Lake is at the bottom of the sea. The Sea King says, "Our worlds connect here. The bottom of the Heavenly Lake is your sky."

How can the bottom of the sea and the sky share a moon? How could Pinmei, Yishan, and the Sea King journey across the bottom of the sea and end up in the sky? Myth, story, and even science have had many ideas about how parts of the world are connected.

Cut out around the dotted line. Then play with the paper until you can make the worlds of this story connect.

THE SKY

THE BOTTOM OF THE SEA
